

# CME /CPD System

The UEMS recommends that all institutions that provide continuing medical education programmes on a regional, national and international level are accredited in the European Union. The same is advised for paediatric urologist with FEPU certificate.

The EBU Accreditation Committee developed a credit system to control Continuing Medical Education (**CME**) and Continuing Professional Development (**CPD**) activities. Today, the system has grown into one of the most accepted and recognized in Europe and **EU-ACME** (European Urology - Accredited Continuing Medical Education) is the only valid organization that JCPU accepts.

-CME system is a lifelong commitment and CME credits are essential for FEPU recertification process

-For the candidates of FEAPU recertification, minimum 250 CME points /5 yrs are necessary for recertification. 125 of this 250 points should have to be taken from pure paediatric urology activities.

**To go to the webpage of the EU-ACME Programme, following steps should be completed:**

- Enter [www.eu-acme.org](http://www.eu-acme.org)
- Click **sign in**

**-How to get the password? (see User's Manual)**

*write your username*

*and your e-mail address → the message with the link to reset your password will be sent to your e- mail address*

-By submitting your username and password you will be logged to your new personal **MyCME** page

Here you will be able

- To check and edit your personal data
- To check the collected credit points
- To add the missing scientific activities
- To create and print your credit registry report
- You may even change your password

This is the only way for documenting your personal CME points and scientific activities!

**In case of any problem and questions:**

You may write to [eu-acme@uroweb.org](mailto:eu-acme@uroweb.org)
