

Dear friends of Pediatric Urology,

Over the last years, the treatment of children with inborn or acquired urologic problems has become very demanding and our sub-specialty is developing rapidly. Urology and Pediatric Surgery are the proud parents of our group.

On behalf of the European Society of Pediatric Urologists, we are pleased to invite you to a very special occasion. The annual Educational Course of our Society will be hosted by the Urology Department of the University Hospital Aachen on November 17 and 18, 2006. All topics in the field of Pediatric Urology will be covered and there will be plenty of occasions to talk with the experts. Case discussions and video presentations will round off the programme.

We look forward to welcoming you in Aachen.

Dorothea Rohrmann  
Local Organizer

Serdar Tekgül  
Chairman
